

EASA Part-66 Category A1 Line Maintenance Certifying Mechanic

Training duration: 1 year (800 hours)

Theoretical part: 280 hours

Practical part: 520 hours

The given program introduces the student to the main elements of disciplines, provides general knowledge of the theoretical and practical aspects of the disciplines, ability to apply the acquired knowledge, general understanding of the device, construction and operation of aircraft and aircraft engines, various features of the technical operation and repair of aircraft, their engines and other aircraft systems.

Professional disciplines to be acquired:

- M1 Mathematics
- M2 Physics
- M3 Electrical Fundamentals
- M5 Digital Techniques / Electronic Instrument Systems
- M6 Materials and Hardware
- M7 Maintenance Practices
- M8 Basic Aerodynamics
- M9A Human Factors
- M10 Aviation Legislation
- M11 Turbine Aeroplane Aerodynamics, Structures and Systems
- M15 Gas Turbine Engine
- M17 Propeller

THE PROGRAM IS CONDUCTED
